

CHAPTER V

CONCLUSION AND SUGGESTION

The last chapter of this study were conclusion and suggestion. It presented some conclusions as well as some suggestions concerning with the finding of the study discussed in the previous chapter.

5.1 Conclusion

From the overall description of the data on the fourth chapter the researcher concluded that the students' perception of SD Muhammadiyah Manyar about English picture story book were good, their responses about English picture story book were also good. It made them creative, like reading, retelling the story and many others.

Besides, English picture story book was important for young learners. It could help their knowledge wider, improve their language, improve their memories and fluency in speaking English.

English picture story book had many benefits for young learners. English picture story book could stimulate their imaginations and English picture story book make the students interested in reading. From this study, the researcher has concluded that the students did not feel bored and always enjoy if they learned English with English picture story book.

5.2 Suggestion

a. For students

After implementing this research, hopefully they will be able to learn as good as they were taught by using English picture story book.

b. For teacher

After conducting the study, the researcher would like to give suggestion for the teacher to support and motivate the students to be interested in reading English storybook.

c. For publishers

The researcher would like to recommend the publisher to create anybooks with new English picture storybook so the students attract to read although it uses English language. The writer and publisher must be creative to show brilliant idea to write and make English picture storybook because it could help improving the students' knowledge.
