5. 1 Conclusion

Based on the result of development on the fourth chapter, it can be concluded as follows:

The result of need analysis showed that the students felt bored with the way of giving vocabulary test before and the teacher asked to the researcher help him. So, the researcher conducted her knowledge in D 1 Computer that was developed media for vocabulary test fifth grade at MI Ma'arif Sidomukti. In order, the student's awareness to test their vocabulary could be increase. Because the vocabulary test using Computer Assisted Language Learning media especially in J-Quiz and J-Match were appropriate and interesting program.

The conclusion of this study that Hot Potatoes (J-Quiz and J-Match) succeed to motivate the student's awareness in vocabulary test. It proofed by the result of student's questionnaire after try out showed that the students satisfied and happy after doing vocabulary test using by Hot Potatoes (J-Quiz and J-Match) than before test.

5.2 Suggestion

Based on this research, the researcher would like to give some suggestions for:

- 1. Teacher:** Especially for the English teacher at MI Ma'arif sidomukti and other teachers in Elementary School level should have innovation and creativity in teaching and learning process also in assessment. The researcher suggests Hot Potatoes software (J-Quiz and J-Match) as media for vocabulary test. The advantage of this media can motivate the student's awareness in vocabulary test and easier the teacher giving vocabulary test to the students without waste papers.
- 2. Students:** The students are also expected to concentrate and motivate on the vocabulary test. They could do vocabulary test using Hot Potatoes (J-Quiz and J-Match) individually or classically using computer media on the school or their home. Because the form of the product was in CD-ROM which could share easily to others. It make easier to the students knowing their ability in English vocabulary.
- 3. Researcher:** This study is not complete yet, but the researcher hopes this study can hold up the previous study on errors that maybe used as consideration for assessment process in the future. The other researcher who interested in developing test can use this research as reference to continuous the study become perfect study.
