ABSTRACT

There are some choices for Childhood Education and Kindergarten school in gresik regency that offered to the parent, especially that want to take early education, even more for parent selectively to decide where them will be take it. Along with difficulty to get teacher or leader of dikdasmen to acces and control Childhood Education and Kirdergarten school progress. Lack of information about place, location, teacher and access the leader of Dikdasmen cause either obstacle to determine the school.

This research to implement the system of information about childhood education and kindergarten regional leaders of 'aisyiyah at gresik regency based on web to facilitated the parent to find information about school and pupil progress by online. Along with the leader of dikdasmen and the teacher in shade regional leaders of 'Aisyiyah can control the progress of it.
