

CHAPTER V

CONCLUSION

5.1 Conclusion

Based on the research of analyzing the English textbook of “Bahasa Inggris” published by Kemendikbud, the researcher can conclude that this textbook is good because the achievement is 95,3%. However, there are some criteria in completeness of presentation aspect were not met the criteria. This book relevant with 2013 curriculum because this book fulfilled most of the core competence and basic competence of 2013 Curriculum which reflected in content aspect in the sub aspect of compability materials with core and basic competence. And most of the criteria fulfilled by the textbook because most of the sub aspect scored 4.

This textbook is good to be used for second grade of senior high schools that have started using 2013 Curriculum. English textbook “Bahasa Inggris” is acceptable to be used by school but need some improvement in the presentation aspect.

5.2 Suggestion

Based on the result, the researcher give some suggestions for the teachers and further researchers.

a. For teacher

In order to improve the quality of teaching results for the teacher, it is built based on experiences and knowledge on many aspects in teaching. The matched textbook with curriculum, the appropriateness of textbook, and the materials in the textbook implemented in the classroom and many other ways to improve the quality of teaching and learning process are in teacher hands. Therefore, teacher needs to seek out the compatibility of the textbook they about to use. This book met all the requirements and standard of a textbook in implementing curriculum 2013. By using this book in teaching ang learning process, hopefully a good result is compromised.

b. For further researchers

The researcher hopes that the next researcher are interest in doing textbooks evaluation may also use the checklist used by the researcher to evaluate other English textbooks which are develop based on 2013 Curriculum or modify the checklist to achieve more comprehensive results of textbooks evaluation. The researcher realizes that this research is far from perfect, that is why some related studies in the same area are needed.
