

## CHAPTER V

### CONCLUSION AND SUGGESTION

#### 5.1 Conclusion

Based on the result of research, the writer concluded as follows :

The use of small group discussion in teaching reading comprehension had helped both the teacher and the students as well. Small group discussion enabled the students to understand the texts by discussed on a group. It also help the teacher to make a good teaching and learning process in the class, because each students have a role and more active in the group, to make their own comment about solving the problem on their group in order to answer the questions and make thing do

Based on the analysis data from the test, it can be concluded that there is effectiveness of teaching reading comprehension using small group discussion for the eleventh grade students of SMP Muhammadiyah 2 Gresik. That result shows that t-test is 11.667 it is higher than t-table 2262 at level significance 5% or 0.05 with d.f.9. It means that is improvement or significant value before treatment and after treatment by using small group discussion, therefore the hypothesis is accepted.

## 5.2 Suggestions

Based on the result of the study, the researcher would like to give some suggestions as follows :

### 1. The teachers

Small group discussion is effective used reading skill, it proven effective improve the students achievement especially in teaching reading comprehension the reason of teacher should use it as one teaching in order to create a good teaching in the eleventh grade students.

### 2. The students

The students must be more active because the opportunity of cooperative learning especially small group discussion are student cooperate the group or team. The students can develop ideas in teaching reading using small group discussion to improve reading ability, they should get a relationship with English teacher, and they should more active in answering the teachers question and they are brave give the English teachers then they do not understand.

### 3. The next researcher

This study is far from perfect, but the research with the same problem to explore of the ability in order gain the perfect study. The next researcher must be applied all of the principle of small group discussion.
