EVALUASI PENYIMPANAN OBAT DAN ALAT KESEHATAN DI GUDANG FARMASI RUMAH SAKIT SEMEN GRESIK

ROMANA KASE

ABSTRAK

Penyimpanan obat dan alat kesehatan yang dikelola dengan baik dapat mencegah kerugian-kerugian pada rumah sakit. Penyimpanan obat di gudang farmasi harus dapat menjamin mutu obat dan keamannya agar tetap stabil dalam masa penyimpanan. Tujuan pengamatan ini untuk mengetahui kesesuaian sistem penyimpanan obat dan alat kesehatan di gudang farmasi Rumah Sakit Semen Gresik. Metode yang digunakan dalam pengamatan ini bersifat deskriptif dengan pengambilan data melalui observasi dan wawancara. Hasil pengamatan menunjukkan bahwa prosedur dalam penyimpanan obat dan alat kesehatan sebagian besar sudah sesuai Permenkes No 58 Tahun 2014 dan pedoman pengelolaan perbekalan farmasi oleh Dirjen Kefarmasian dan Alat Kesehatan Tahun 2010. Akan tetapi, ada beberapa hal yang belum sesuai antara lain penyimpanan obat LASA (*Look Alike Sound Alike*) yang belum terpisah, lemari/rak khusus untuk obat yang mudah terbakar belum tersedia, dan luas gudang farmasi Rumah Sakit Semen Gresik kurang memadai.

EVALUATION OF DRUG STORAGE AND MEDICAL DEVICES IN THE PHARMACEUTICAL WAREHOUSE OF HOSPITAL CEMENT GRESIK

ROMANA KASE

ABSTRACT

Storage of medicines and medical devices that are managed properly can prevent losses at the hospital. Storage of drugs in a pharmaceutical warehouse must be able to guarantee the quality of the drug and its safety so that it remains stable during the storage period. The purpose of this observation was to determine the suitability of drug storage systems and medical devices in the pharmaceutical warehouse of Semen Gresik Hospital. The method used in this observation is descriptive with data collection through observation and interviews. Observations showed that procedures for storing drugs and medical devices were mostly in accordance with Minister of Health Regulation No. 58 of 2014 and guidelines for the management of pharmaceutical supplies by the Director General of Pharmaceuticals and Medical Devices in 2010. However, there were some things that were not appropriate including LASA drug storage (*Look Alike Sound Alike*) which was not separated, special cabinets / racks for flammable drugs were not yet available, and the pharmaceutical warehouse area of Semen Gresik Hospital was not enough space.
