CHAPTER V

CONCLUSION AND SUGGESTION

This chapter consists of conclusion and suggestion necessary things to the researcher to evoke the study about idiom.

5.1 Conclusion

Based on the dialogue of the movie *"Harry Potter and the Sorcerer's Stone",* the researcher found many idiomatic expressions used for conversation by each character in the movie. This study just identified idiom on the Harry's dialogue.

After the reseacher analyzed the dialogue by main character in the movie, she found idiomatic expressions related to the movie. She devided into two types of idiom, they were 22 for lexemic idioms and 17 for phraselogical idioms. Among the types of idiom the researcher thought that lexemic idiom was easily for identification. Actually idiomatic expressions exist in almost of all conversations in the movie and in daily activities.

5.2 Suggestions

The researcher found that movie is the best choice to learn English. The favorite movie is more fun to learn. Learning English from the movie is more effective. We get knowledge about grammar, pronunciations, synonyms, antonyms, slang, and idiom etc. They can be applied into conversation in English. In such condition, the researcher has some suggestions as follows:

1. To Teacher, movie is good media to teach English. The movie has many language forms in it. This study showed one of language forms that can be found in movie, it was idiom. The teacher can teach materials about idiom in English.

2. To Learners, when we learn English we also learn about culture . The cultural aspec is idiomatic expression, but that is not only idiom, there are many English forms in culture that have to be learnt.

3. To other reseacher, this study still observes in idiom area. The reseacher hopes the next researcher observes other language forms. There are many languange forms need to be developed.
