

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter presented to point out some essential findings that have been elaborated in the previous discussions. In reference to the findings of this study, some conclusions and suggestions are summarized as follows:

5.1. Conclusion

Based on the first statement of the problem which to find out the use of word chain in teaching English vocabulary for the fourth grader at SDN Gulomantung Kebomas Gresik. The result showed that the teacher applied word chain in teaching vocabulary in the classroom by using two ways. The ways were by writing on the blackboard and matching vocabularies on word chain with the pictures.

In relation to the result above, from the second research questions which are to know the problems that teacher had when applying word chain in teaching English vocabulary. The results showed that the teachers had some problems. They are about characteristic or personal and social problem of the students.

In relation to the problems above, the teacher used some strategies to solve those problems. The result showed in solving the students' characteristic or personality problem of the students, the teacher tried to be aware and response to the students' personality or characteristic and convinced them that they could if they wanted to study hard. She also built up her students' confidence, made them

care and enjoy the lesson. Moreover, to solve the students' social problem, the teacher tried to create learning community like pair work, or group discussion to make students became cooperative and share knowledge each other.

Based on the result of this study, it could be said that the implementation of word chain in teaching English vocabulary by an English teacher of the fourth grade students at SDN Gulomantung Kebomas Gresik was quite effective. Because she Implemented word chain by using two ways, they are writing on the blackboard and matching the word on word chain with the picture.

5.2. Suggestion

Considering the research findings of this study above, the writer would like to give some suggestions in order to be useful in improving the use of Word Chain in teaching English vocabulary.

Word Chain can be used as a game to teaching English. Moreover, the problems above can be solved by making the classroom's atmosphere more attractive and enjoyable in learning English. So that, it can make the student feel comfortable to learn vocabularies.

Beside that, the also wanted to give suggestion for further writer, it will be better if this study was continued in the future to see the differences of implementing Word Chain in teaching another skill of English that implemented by an English teacher.
