Teacher's Diary Journal (cycle 1)

Meeting I (16th July 2012)

In that Monday, I go to school early because this is the first day in cycle 1 to conduct my classroom action research. When I arrived at school, the fifth class was so crowded. When I heard the bell, me with my teacher's partner came into class together. The teacher's partner sat on the back of the class. Immediately, I greeted the students, they replied unconfidently, so I immediately ask their condition. They didn't catch what I had been said, they didn't know how to reply my question. I ask "how are you" they were just keep silent. So I taught them how to say greeting and how to reply in english. Then I remind them do they still remember that that day they will be going to be get new method for learning vocabulary using Gouin series. Entering the opening activity, students rather shame to say their opinion when i asked them for build the context. In whilst activity, they felt funny when i started to present the Gouin series. But when the students' turn, they feel ashamed, looked can not really enjoy to practice the series. But after I motivated them in order to more energetic doing that series, then they got better. When I ask one of them to be a volunteer to perform infront of class. They are really did not want to come forward. Idid it well, they could complete the exercise quite well.

Meeting II (23rd July 2012)

In the second day of action, I wanted that the student did not ashamed again. So the teaching and learning prcess would work well. With the topic getting up in the morning, I opened the class by greeting and checked the attendance list. I did the building context to reveal students opinion about the topic. They started to give their opinion , although it was only some of students. Then, on the whilst activity, students started to enjoy following the teacher instruction, they feel fun although some

students still ashamed. They were interested in the props that I brought that day. They were curious. Next, when they practiced the Gouin series they laugh all the time with their friends. They felt fun saw the other friend do the gesture.

Meeting III (30 July 2012)

In the third meeting, the class looked condusive. it was time to explore their performance to practice the Gouin series. When they practiced the Gouin series together with the teacher, they feel enjoy and energetic. When I devided class into two group to do the exercise, they felt not comfortable if I mix them, they wanted to find the group by their own, so we agreed the class was divided into two, one group consist of the female students and one group consist of the male students. They did the exercise well and silent. After I said that the time was over, the class became crowded. Then I ask them paste the jumbled sentence into board so they get the right sequence. Their group work well, they help each other in the group. Next, they can finish it simulstaneously .

Meeting IV (6th July 2012)

In the last meeting, they were enthusiastic and asked me about the topic that will be taught that day. I felt happy because they were looked enjoy my class. Then I said that the topic then was “my daily activity in the night”. They asked me to start the Gouin series soon. Then I remind that that day was the last day I taught them so I asked to them maximalize the lesson, because later I will review all the lesson they have been got from the first meeting. So they looked seriously to join the class. After practicing the Gouin series together . They all wanted to follow the series.but when they got the exercise and have to come forward, they did not want to be the first. So, I made numbered lottery, so they had just take the lottery then practice in front of class based on the number each group. Then in pair students perform in front of class, one is becoming the actor the other becoming speaker telling the action in the same time

by reading the text. Then in the last, I asked student what they have learnt from the lesson and remind the the students about there were more another daily activities that students have. I asked every student who wanted to get a point and reward, so they may come forward with Gouin series that they have been learnt. Then, there were several students raised their hand to do my challenge. Finally, by seeing the ability almost of student come forward with their own Gouin series, I felt that their vocabulary were get improved although not all the student in the classroom.
