Abstract

The purpose of this study is to analyze the influence of taxpayer awareness, knowledge and understanding of taxpayers, the perceptions of tax system effectiveness, the quality of tax service, and tax penalties on taxpayer compliance micro small medium enterprises. Sampling method used is convenience sampling technique that is based on the determination of the sample population of data that is easily obtained by researchers. This study was taken using primary data through questionnaires. Questionnaires are distributed as much as 90 pieces to the taxpayer category of private individuals who have a free business registered in the Office of Tax Service Pratama Gresik Utara and questionnaires are processed as many as 50 units. Testing is done by using multiple linear regression analysis. Result of hypothesis test indicate that taxpayer awareness factor, knowledge and understanding about taxation, perception of tax system effectiveness, and tax sanction have an effect on to compliance of UMKM taxpayer. While the fiscal service quality factor does not affect the compliance of taxpayers UMKM.

Keywords: awareness, knowledge and understanding, system, service, and tax penalties.
