The email body contains the following text:

I have received your valuable email. I would like to also inform you that after either submission or re-submission of the paper, it will take min 01 to 02 weeks for further endorsement. If after re-submission, submission date is not over then it will consider for the same volume/issue of the journal but if date has been over then it will forward for next coming volume/issue of the journal. **All submitted paper should be cutting edge, result oriented, original paper and under the scope of the journal that should belong to the engineering and technology area.** In the paper title, there should not be word "Overview/intro/ Introduction, Review, Case study/ Study, Survey, Approach, Comparative, Analysis, Comparative Investigation, Investigation". These words may cause for rejection of the paper. Good quality plagiarism software/ tool (Turnitin / iThenticate) will be used to check similarity that would not be more than 20% including reference section. In the case of exclusion of references, it should be less than 5%.

The submitted manuscript is accepted with minor changes. Update your paper as per experts comments:

Reviewer-1	<ol style="list-style-type: none"> Paper is good, covers all steps of proposed methodology and defined properly. Abstract is the summary of the research work. The main parameters of the abstract are: what, how, and why. What: It includes definition of the research work means what is going on in research work. How: It covers methodology part means define a technique/ methodology that help to execute your research work. Why: It focus application of the research work means where it can use. Abstract should not be more than 250 to 450 word. Overall, your abstract may be more meaningful if you write your abstract as per above parameters. Without any reference, research work cannot start. If any content/paragraph/figure/table is copied from anywhere. It should be marked properly at the end of the content/paragraph/figure/table i.e [1]. This marking should also cite in the reference section. Overall, references are not cited properly, it should be better.
Reviewer-2	<ol style="list-style-type: none"> Paper can be accepted borderline. A conclusion is the last part of something, its end or result. When you write a paper, you always end by summing up your arguments and drawing a conclusion about what you've been writing about. Overall, your paper may conclude more better way.
Reviewer-3	<ol style="list-style-type: none"> Paper can be marginally accepted. Proposed Algorithm/ Methodology is a process or set of rules to be followed in calculations or other problem-solving operations. It should be written in proper way with comments that help to understand. Overall, It may include step by step in this paper. Experimented results may be included in tabular form. Author's profile along with photo can be included as per paper template.
